

## Rigid - Navitrack Scout Locator

Scout is designed to solve the most demanding remote transmitter (sonde) locates using the same multi-directional locating technology as the full-featured NaviTrack II.

### Easier Locates

The Scout's multi-directional antenna technology sees the entire signal all of the time. Simply maximize the signal strength and you have found the target. No nulls or false peaks to complicate the locate.

### Accuracy

Scout verifies the locate position using a micro-mapping display to mark distinctive poles in front of and behind the target, insuring an accurate locate.

### Automatic Depth

Depth is automatically calculated and displayed when over the target.

The Scout is ideal for users locating SeeSnake cameras and other sondes who occasionally need to locate energized lines.
